University of CINCINNATI

Syllabus

MATH 1021, (24US-1st) College Algebra (002)

MWF 10:30am – 12:30pm, 60WCHARL 140

Instructor Name: Ethan Davis
Email: davis5ej@mail.uc.edu
Office: French Hall 4513
Office Hours and Location: On zoom, by appointment

Course Overview, Description, Purpose

College Algebra is a study of linear, polynomial, rational, exponential, and logarithmic functions, systems of linear equations, and modeling with functions.

Course Learning Outcomes

- Analyze and perform operations with functions including linear, quadratic, polynomial, rational, power, exponential, and logarithmic.
- Use these functions to create and interpret basic mathematical models within real world applications.
- Solve equations including linear, quadratic, rational, exponential, and logarithmic.
- Graph functions including linear, quadratic, polynomial, rational, exponential, and logarithmic.
- Solve a system of linear equations.

Breath of Knowledge Areas

- QR Quantitative Reasoning

Baccalaureate Competencies

- CT Critical Thinking

Pre-requisites

You must have scored at least a 430 on the Mathematics Placement Test or taken MATH-0034 and earned at least a C- letter grade for that course.

Course Format

A typical class will consist of the following:

- 2 Sections from the Workbook
- A check-in over material from previous class
- Work on other assignments / homework (time permitting)

It will be VERY beneficial to bring some sort of laptop / tablet.

Course Materials

Required readings / Equipment / Technology

Textbook:

- **Required**: College Algebra Workbook V2.2 the publisher is Van-Griner and can be purchased through the bookstore.
- College Algebra, 6th edition, by Rockswold published by Pearson. The ebook and MyMathLab are included as part of your Included fee. You may, if you wish, purchase the loose-leaf textbook. It is not necessary, though.

Calculator:

- A scientific or graphing calculator will be needed for this course. A TI-84 is the recommended calculator for this course.

In addition, bringing a laptop or tablet will be helpful for quizzes, graphing, etc.

Assessments/Activities and Grading Policy

Grading will be based on the following percentages:

Check-ins	8%
4 Quizzes	12%
Homework	30%
3 Exams	30% (10% each)
Comprehensive Final	20%

Pass/Fail, Audit, and Withdrawal Policy
The last day to withdraw can be found here: https://www.uc.edu/about/registrar/calendars/summer-2024/dates-deadlines.html#D

If you choose to withdraw from this course, you may submit the withdrawal electronically through the online registration system (catalyst.uc.edu). You will be assigned a grade of W regardless of your grade at the time you withdraw.

NP: The "NP" grade means "Not Proficient" and will be used for this course and all 1000-level mathematics and statistics courses. This grade was developed to aid students who have significant challenges related to preparedness and often need to take courses more than once to succeed. The NP grade will not factor into the GPA. Grades of NP will not result in earned credit, will not fulfill a prerequisite for a subsequent course, and will not count towards Satisfactory Academic Progress for financial purposes. Instructors will assign the "F" grade only in cases of academic misconduct. Students who earn the grade of
D-, D, or D+ can request a change in their grade from NP to the grade earned for up to one year after the NP grade was assigned. It is important to consider that D grades affect GPA and may affect academic standing. Students who earned D grades should contact their academic advisors for help deciding whether to request this change.

Incomplete: An "I" (incomplete) grade will be assigned only if some emergency or illness prevents you from completing the course. To be eligible, you must have successfully completed the first 12 weeks with a grade of "C-" or better. You must also have documentation of your excuse. You must arrange with the instructor to complete all work within the next semester.

Classroom Procedures and Policies

Communication
The best way to communicate with me is through email. I will do my best to respond with 24-48 hours.

Academic Integrity

The University Rules, including the Student Code of conduct, and other documented policies of the department, college, and university related to academic integrity, will be enforced. Any violation of these regulations, including acts of plagiarism or cheating, will be dealt with on an individual basis according to the severity of the misconduct. The violation could be part of your university record for 7 years (not listed on the transcript). Sanctions range from receiving a zero for the specific assignment involved to failure for the course. The Two-Strike policy can be found at the following website. https://www.artsci.uc.edu/information/undergrad/academic-policies.html

Technology use during/for class
Unless explicitly stated otherwise, the only technology permitted on graded assignments is a calculator. Having a laptop or tablet in class will be helpful for taking check-in's or if we work on homework in class.

Attendance Policy
This is an in-person course. It is extremely important for your success in this course to attend every class. Attendance will be taken each class in the form of a check-in.

Student Religious Accommodations
Ohio law and the University of Cincinnati's Student Religious Accommodations for Courses Policy 1.3.7 permits a student, upon request, to be absent for reasons of faith or religious or spiritual belief system or participate in organized activities conducted under the auspices of a religious denomination, church, or other religious or spiritual organization and/or to receive alternative accommodations with regard to examinations and other course requirements due to an absence permitted for the above-described reasons. Not later than fourteen days after the first day of instruction in the course, a student should provide the instructor with written notice of the specific dates for which the student requests alternative accommodations. For additional information about this policy, please contact the Executive Director of the Office of Equal Opportunity and Access at (513) 556-5503 or oeohelp@UCMAIL.UC.EDU.

Accessibility Resources
Students with any special learning needs related to their participation in this course should meet with the instructor as soon as possible to arrange for reasonable provisions to ensure an equitable opportunity to meet all the requirements of this course. A copy of documentation from the Accessibility Resources Office must be provided to the instructor before certain accommodations (e.g. extended time for taking tests) will be allowed.

Student Resources

The MASS Center offers dedicated study tables for several courses across the university. By attending the study table for this course (see schedule here), students can guarantee that a tutor will be available to support them and their fellow students when they arrive. The MASS Center is located in 2133 French Hall-West.

Peer tutoring for this course is offered through the Learning Commons.

I reserve the right to update this syllabus as class needs arise. Be assured that I will communicate to you any changes to our schedule, syllabus or policies quickly and efficiently through **canvas.**
